About IE India:

The Institution of Engineers (India) [IEI] is a statutory body to promote and advance the engineering and technology, established in 1920 and incorporated by Royal Charter in 1935. It is the largest multi-disciplinary professional body of engineers encompassing 15 (fifteen) engineering disciplines with a membership of more than 820 thousand, and serving the nation for more than 9 decades. The IEI has its headquarters located in Kolkata with national presence through more than hundred Centres and several Overseas Chapters, Foras and Organ.

Institution of Engineers (India) Bhimavaram Local Center was established on 18.09.2015. The center was inaugurated through the golden hands of the then National President of IEI, Dr. LV Murali Krishna Reddy, FIE and the Letter of Warrant was issued for establishment of the center by the then Secretary & Director General of IEI, Er. B Brahma Reddy, FIE.

About Sir C. R. Reddy College of Engineering:

Sir C.R.Reddy College of Engineering is the first Engineering College in Andhra Pradesh sanctioned and recognized by All India Council for Technical Education (AICTE). This College is permanently affiliated to Andhra University, Visakhapatnam and affiliated to JNTU, Kakinada.

Since its inception in 1989, Sir C.R.Reddy College of Engineering has been a premier institute for quality engineering education in Andhra Pradesh under the stewardship of its broad minded and magnanimous management. The last two and a half decades has seen the Institute fulfilling its motto of 'QUALITY SERVICE & VALUE BASED EDUCATION' to the student community.

Adhering to its core values, the institute gives top priority to ethical values and high standards and a commitment to value based education. The College is located in its own sprawling campus with an area

of 30.48 acres. Its magnanimous infrastructure and greenery attracts the attention of people who pass by. The vast green campus housing several Departments provides a stimulating environment to the high caliber staff and students of the institution.

The Campus at Vatluru is a place where students from all walks of life are under a single umbrella pursuing their BE/B.Tech, M.Tech, MCA and MBA courses.

About Seminar:

Proper solid waste (SW) disposal is a major challenge worldwide. Uncontrolled waste dumping has adverse impact on the surrounding environment. According to waste hierarchy, land filling is the least preferred option. Therefore, there is an urgent need to understand various mechanisms by which recycling and recovery of various waste components could be maximized. At the same time, the land requirement for waste disposal will be reduced significantly which is not easily available in urban cities due to continuously growing industrial and other activities. The main goal of this seminar on Solid Waste Management is to enlighten all the concerned stake holders of the society on the essential principles entailed in the management of society's waste in a manner that meets public health and environmental concerns as well as taking into consideration, the public's desire to reuse and recycle waste materials. During the seminar, the source, composition and properties of solid waste will be discussed. Advanced principles related to the separation, processing, and transformation technologies of solid waste will be discussed. The reuse and/or sale of recovered materials are some of the focused topics of this seminar.
