Number of students Attended: 52

Venue: III/IV B. Tech Class Room

The Civil Engineering department's GATE classes were tailored to equip students with the requisite knowledge and skills essential for excelling in competitive exams like GATE. Spanning four days, these sessions covered indispensable topics including Highway materials - desirable properties and tests; Desirable properties of bituminous paving mixes; Design factors for flexible and rigid pavements; Design of flexible and rigid pavement using IRC codes Statically determinate and indeterminate structures by force/ energy methods; Method of superposition; Analysis of trusses, arches, beams, cables and frames; Displacement methods: Slope deflection and moment distribution methods; Influence lines; Stiffness and flexibility methods of structural analysis. These classes were aimed at fortifying students' foundational knowledge and honing their problem-solving acumen to confront the GATE Exam with confidence. Students expressed their gratitude, recognizing the opportunity to participate in these classes and acknowledging the pivotal role the acquired knowledge and skills will play in their performance in the upcoming GATE exam. They lauded the clarity with which complex concepts were elucidated, the patience exhibited in addressing doubts, and the strategic problem-solving approach, all of which significantly enriched their understanding of the subject matter. A total of 52 students partook in the training program, with both the management and principal extending their appreciation to the team for their invaluable contribution.

REPORT

Name of the program: GATE CLASSES

Date: 08-11-2021 to 12-11-2021

The GATE classes conducted by the EEE department aimed to get students with the necessary knowledge and skills to qualify in Competitive exams like GATE. The GATE classes were conducted over a period of 5 days, covering essential topics from the subjects such as Electrical Machines, Control Systems, Power Electronics, and Power Systems. The classes aimed to strengthen student's foundational knowledge and problem-solving abilities in attempting competitive exams. The students are expressing their gratitude for the opportunity to be a part of GATE classes conducted by us, and we believe that the knowledge and skills we've gained will be pivotal in our performance during the upcoming GATE exam. The management and principal appreciated the team work of our department.

REPORT

Date: 12-12-2021

Name of the program: Coaching For Competitive Exam (GATE)

Dates : 08-12-2021 to 11-12-2021

Resource person s details

Names : Dr.k.Lalit narayan. Dr.SK.sadik

Address: Department of Mechanical Engineering
Sir cr reddy college of engineering

Mail id : hod.mechanical1989@gmail.com

Contact number : 08812-230565

No Of Students Attended :106

Venue : IV/B.TECH CLASS ROOM, & DUSULT LAB

The Gate Classes Conducted By The Department Of Mechanical Engineering Aimed To Train Students With The Necessary Knowledge And Skills For Success In Competitive Exams Like Gate The Gate Classes Were Conducted Over A Period Of 4 Days Converting Essential Topics Such As Manufacturing And Engineering Materials And Also Engineering Mathematics For The Particular Topics Are Different Types Of Castings, Design Of Patterns, Moulds And Cores; Solidification And Cooling; Riser And Gating Design. Plastic Deformation And Yield Criteria; Fundamentals Of Hot And Cold Working Processes; Load Estimation For Bulk (Forging, Rolling, Extrusion, Drawing) And Sheet (Shearing, Deep Drawing, Bending) Metal Forming Processes; Principles Of Powder Metallurgy. Principles Of Welding, Brazing, Soldering And Adhesive Bonding.

Linear Algebra: Matrix Algebra, Systems Of Linear Equations, Eigen Values And Eigen Vectors. Differential Equations: First Order Equations (Linear And Nonlinear); Higher Order Linear Differential Equations With Constant Coefficients; Euler-Cauchy Equation; Initial And Boundary Value Problems; Laplace Transforms; Solutions Of Heat, Wave And Laplace's Equations. FOR The Classes Aimed To Strengthen Students Foundational Knowledge And Problem Solving Abilities In The Attempting The Gate Exam Without Any Fear The Students Are Expressing Their Graduate By Saying Grateful For The Opportunity To Be A Part Of Your Classes And We Believe That The Knowledge And The Skills Were Gain Will Be Pivotal In My Performance Which You Explained Complex Concepts Your Patience In Addressing Our Doubts And The Strategic During The Upcoming Gate Exam The Clarity With Which You Explained Complex Concepts Your Patience In Addressing Our Doubts Another Strategic Approach To The Problem Solving Were Instrumental In Enhancing My Understanding Of The Subject Matter 106 Students Have Attended The Training Programmed. The Management And Principal Appreciated The Team For Their Contribution

REPORT

Name of the program: GATE CLASSES

Date: 08-11-2021 to 12-11-2021

The GATE classes conducted by the EEE department aimed to get students with the necessary knowledge and skills to qualify in Competitive exams like GATE. The GATE classes were conducted over a period of 5 days, covering essential topics from the subjects such as Electronic Devices and Circuits, Switching Theory and Logic Devices, Analog Communications, and Microprocessor and microcontroller. The classes aimed to strengthen student's foundational knowledge and problem-solving abilities in attempting competitive exams. The students are expressing their gratitude for the opportunity to be a part of GATE classes conducted by us, and we believe that the knowledge and skills we've gained will be pivotal in our performance during the upcoming GATE exam. All third year students have attended the program. The management and principal appreciated the team work of our department.

The GATE classes conducted by the CSE department aimed to train students with the necessary knowledge and skills for success in Competitive exams like GATE. The gate classes were conducted over a period of TWO WEEKS, covering essential topics such as System calls, Scheduling Algorithms, Page replacing Algorithms, Deadlocks, File Systems in operating systems and Data ware house, Relational model, Normalisation, Structured Query language, Transaction and concurrency control in Database Management Systems and Arrays, graphs. Hashing, Linked list, Stacks and queues in Data structures and Network layer, Routing Algorithm, TCP UDP Sockets and Congestion Control, Application Layer Protocols, Network Security in Computer Networks. The classes aimed to strengthen students' foundational knowledge and problem-solving abilities in attempting the GATE Exam without any fear. The students are expressing their gratitude by saying grateful for the opportunity to be a part of your classes, and we believe that the knowledge and skills we've gained will be pivotal in my performance during the upcoming GATE exam. The clarity with which you explained complex concepts, your patience in addressing our doubts, and the strategic approach to problem-solving were instrumental in enhancing my understanding of the subject matter. 155 students have attended the training program. The management and principal appreciated the team for their contribution.

Number of students Attended: 103

Venue: E-CLASS ROOM / III/IV B.Tech Class Room

Gate classes by Smt.T.Satya Nagamani at E-class Room

Gate classes by **Sri.D.Srinivas Rao** at E-class Room

The GATE classes conducted by the IT department aimed to train students with the necessary knowledge and skills required for success in Competitive exams like GATE. The gate classes were conducted over a period of 4 days, covering essential topics such as Boolean algebra, K map, Multiplexer in DLD and Regular expression and finite Automata, lexical analysis, parsing in compiler design. The classes aimed to strengthen students' foundational knowledge and problem-solving abilities in attempting the GATE Exam without any fear. The students are expressing their gratitude by saying grateful for the opportunity to be a part of your classes, and we believe that the knowledge and skills we've gained will be pivotal in my performance during the upcoming GATE exam. Faculty clarified their doubts and given some exercises for their practice. 103 Students have attended the training program. The management and principal appreciated the team for their contribution and suggested the students to practice more concepts and score good rank in the GATE exam.

The Aptitude and Reasoning sessions hosted by the Civil Engineering Department are meticulously designed to equip students with essential skills vital for excelling in competitive examinations such as GRE, TOEFL, and Placements. These sessions, spanning five days, cover a wide array of crucial topics including Speaking and Writing Skills, Sentence Rearrangement, Analytical Writing, Reading and Listening Skills, Passage Completion, Logical Reasoning, Quantitative Aptitude, Verbal Reasoning, Non-Verbal Reasoning, and Blood Relations. Our sessions are carefully curated to enhance students' foundational understanding and problem-solving abilities, empowering them to approach Competitive Exams with confidence. Participants consistently express deep appreciation for the invaluable learning experience provided by our sessions, recognizing the acquired expertise and skills as pivotal to their success in examinations. They commend the clarity with which complex concepts are explained, the patience exhibited in addressing queries, and the strategic problem-solving methodologies employed, all of which significantly enhance their comprehension of the subject matter. A total of 66 students actively participated in the training initiative, with both management and the principal extending commendations to the team for their substantial contributions.

AGENDA

Aim:

To train students with the necessary Knowledge on future technology.

Key Outcomes:

- Overall, Social skills-such as persuasion, emotional intelligence and teaching others-will be in higher demand rather than narrow technical skills , such as programming or equipment operation and control.
- Accomplishing goals can help developers create a career that aligns with they want.
- Gaining new skills can keep a job seeker interested in their field long term and help them develop new interests that may affect their overall career trajectory.

Report

Name of the program: Employability and Technology Trends

Dates : 15-12-2022

Number of students Attended : 209

Resource Person Details:

Name : Richard King

Address : Tata Consultancy Services

Time : 9:00 AM to 5:00 PM

Venue : AC Seminar Hall

Giving students the skills and information necessary to do well on competitive tests was the aim of the CSE departments "Employability and Technology Trends" lectures. Important topics aptitude, reasoning, and subject-oriented concerns were covered in the two hours of instruction. Enhancing the student's foundational knowledge and problem-solving abilities was the aim of the lessons, enabling them to confidently adopt the trends without fear.

Acknowledgements:

The students are thanking you for giving them the opportunity to attend your lectures and expressing their belief that the knowledge and abilities they have acquired would be essential for their success in the next competitive exams. My comprehension of the subject matter was improved by the way you patiently answered our questions, the way you clearly articulated difficult ideas, and the methodical way you approached your own aims and objectives. The team's contributions were valued by the Management and Principal.

ABOUT THE ENTREPRENEURSHIP EXPERIENCE:

Entrepreneurship Development is gradually becoming very significant in various areas of economic development. Innovative start-ups and new enterprises act as a catalyst for the economy. Novel opportunities and market gaps are identified and resources are allocated to them to produce something new and useful. The need of the hour is to develop effective policies to cater to the new challenges such that the modern day problems can be solved. The workshop focuses on the basic and advanced approaches of entrepreneurial development and how it can be imbibed to the participants.

FIRST SESSION:

Introduction The job market is dynamic, requiring individuals to possess a combination of knowledge, practical and social skills and positive attitudes. Fiji, like many developing nations, is seeking to create bridges between education and the world of work. It has been acknowledged that a strong TVET sector with its associated high standard of training and accreditation driven by industry standards is the backbone for a strong economy and workforce. The Ministry of Education recognizes Technology and Employment Skills Training (TEST) as a priority area supporting children's educational development. In working towards improving access to education, improving the quality of education provided to all children, and reducing school drop-out rates, the Ministry of Education introduced the Start Your Own small Business (SYOB) course to the Vocational Centre's in the Secondary School system in Fiji. Following the implementation of SYOB, the ILO Know About Business (KAB) programme was then piloted in collaboration with the MOE with selected schools in Fiji. A KAB training workshop was organised for teachers, MOE Officers, MOY officers and NGO trainers. In the months following, the MOE has since expanded the KAB and SYOB programmes to include other schools in Fiji, and the

Ministry of Youth has also included KAB as a course in their training curriculum for youths. The development of the SYOB and KAB Courses was supported by the Tackling Child Labour through Education (TACKLE) programme, funded by the European Union and coordinated by the International Labour Organization (ILO). It is currently supported by the ILO Sub Regional

SECOND SESSION:

Entrepreneurship Education The ILO promotes the importance of Entrepreneurship Education as part of a lifelong learning strategy, starting at an early age, that can contribute to increased youth employability by building an entrepreneurial mind-set, positive attitudes, self-confidence, knowledge and skills needed to adapt to today's changing labour market needs and to become responsible, active and productive citizens. The ILO's entrepreneurship education programme Know About Business (KAB) responds to the needs of member countries that intend to introduce entrepreneurship education at secondary education, vocational and technical education and higher education levels. KAB is a comprehensive set of training materials and an interactive learning methodology that has been implemented and adapted in over 50 countries around the world. KAB encourages young people to consider self-employment as a possible career path. Learners exposed to KAB will become aware of the role of enterprises and entrepreneurs in the society and those who consider entrepreneurship as a career option will learn how to face the challenges of managing a small business.

THIRDESSION:

Workshop Objectives:The training was facilitated by internationally certified KAB trainer and author of KAB, Professor Robert Nelson from the University of Illinois (USA). Professor Nelson was assisted by 6 trainers from the Fiji Ministry of Education TEST section, Fiji Ministry of Youth, and the Kiribati Chamber of Commerce and Industries, who are also being considered for ILO certification as National KAB Trainers with the aim of establishing a Pacific pool of certified KAB Trainers. The participants of the training include representatives from the Ministry of Education and Ministry of Youth, school teachers, and trainers from Vanuatu and Kiribati.

The overall objective of the KAB workshop were:

- To provide KAB training to participants from the Ministry of Education, Heritage and Arts and the Ministry of Youth and Sports in Fiji as well as from the Vanuatu Institute of Technology.
- To provide KAB Facilitator the opportunity to train with International KAB Trainer.

Professor Robert Nelson with the aim of becoming National KAB Facilitators To meet the objectives, the training was divided into 8 daily sessions with the 9 KAB modules being presented by the facilitators and microteaching sessions following each presentation by the participants. One of the key aspects of this training was to 'learn by doing' therefore the participants were expected to fully participate in the micro teaching sessions and were divided into groups on the first day with activities allocated according to modules covered on each day

The third session was ended at 04:45 P.M

The workshop was concluded by the valedictory session which was undergone in presence of Dr.M.B.S.V.Prasad, Secretary, Dr.G.Sambasiva Rao, Principal and Dr.K.Venkateswara Rao, H.O.D of Mechanical Department the college where each participant was awarded by a certificate of participation.
